01 / PREPARE & UPDATE

ALLDATA® on MaxiSYS

Look up OEM repair information on your tablet browser or beside your MaxiSYS scan results.

BEFORE YOU START

You need active Autel and ALLDATA® subscriptions. Connect to Wi-Fi, ensure your tablet is properly charged. Have your ALLDATA® login ready. A vehicle connection is not needed for Quick Link.

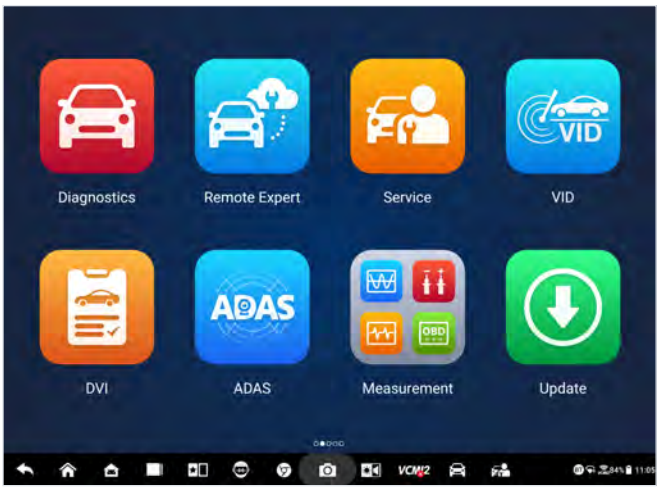
Supported tablets: MaxiSYS Ultra S2, MS919 S2, MS909 S2, Ultra, MS919, MS909, Ultra ADAS, Ultra EV, and the MaxiHVAC AC909 (integration expected by mid-Nov. 2026)

Update your tablet first

Already running the latest software? Skip to Access Method.

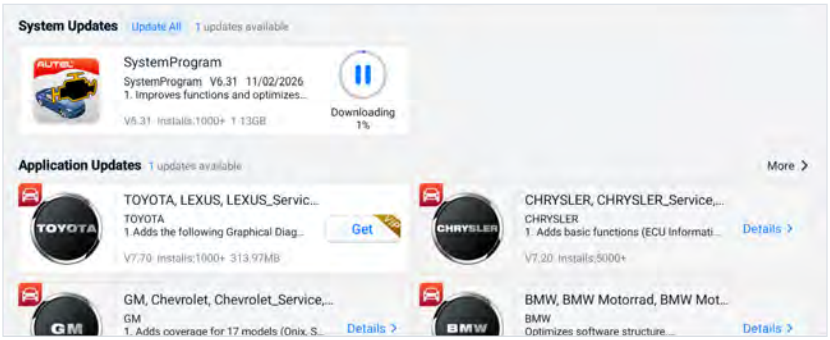
01 Open Update App

From the MaxiSYS home screen, tap Update.



02 Install available updates

Install System Program Update. SystemProg V6.31, available 11/06/26 contains the ALLDATA® integration fucntionality.



02 / CHOOSE YOUR ACCESS METHOD

Three ways to Access ALLDATA® on your Tablet

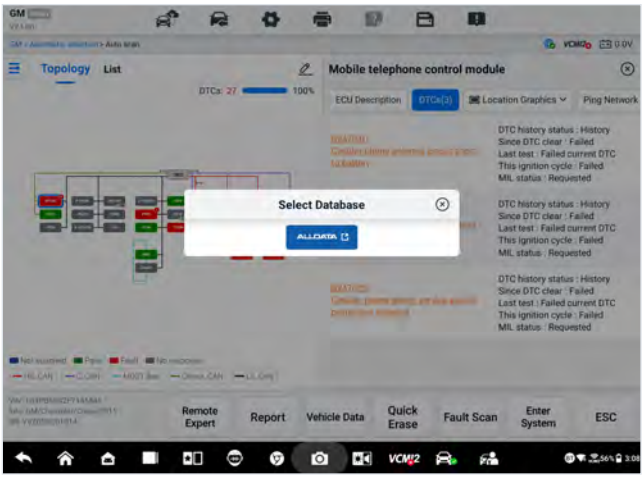
Choose the route that fits your task.

A Access Vehicle Data

After identifying the vehicle and running a scan, tap Vehicle Data on the bottom bar, then tap ALLDATA®.

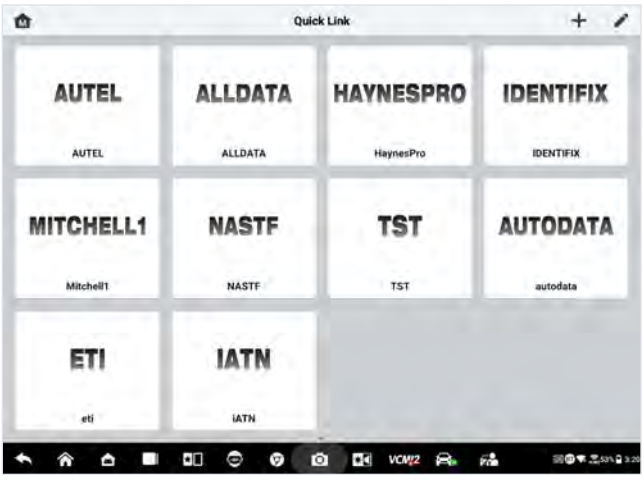
B Access from a DTC

In a diagnostic session, open a control unit and its DTCs. Tap an underlined fault code or description, then choose ALLDATA® in the Select Database pop-up.



C Quick Link

Open Quick Link on your MaxiSYS tablet, then tap ALLDATA® . Look up repair information without connecting to a vehicle. Select the vehicle you want to research in ALLDATA®.



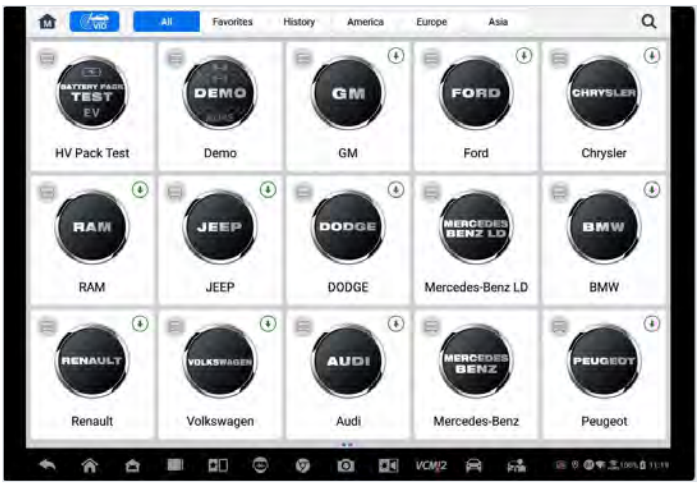
03 / VEHICLE WORKFLOW

Connect to the vehicle

For Vehicle Data or DTC access, connect the VCI/VCMI and identify the vehicle.

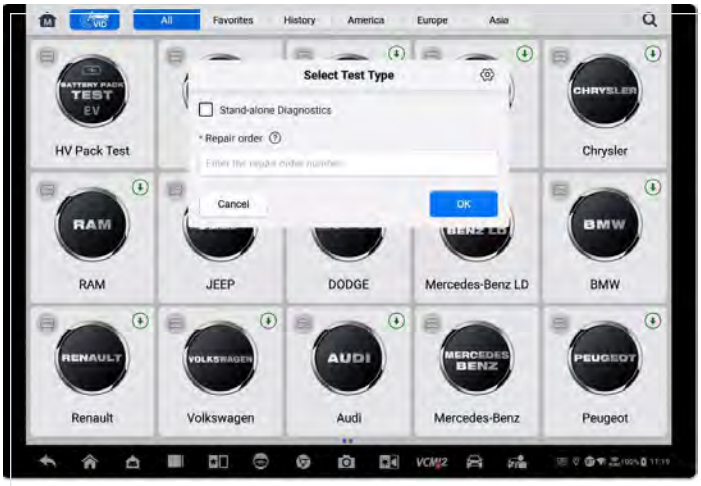
03 Choose the make

Tap Diagnostics, then select the vehicle make, such as GM.



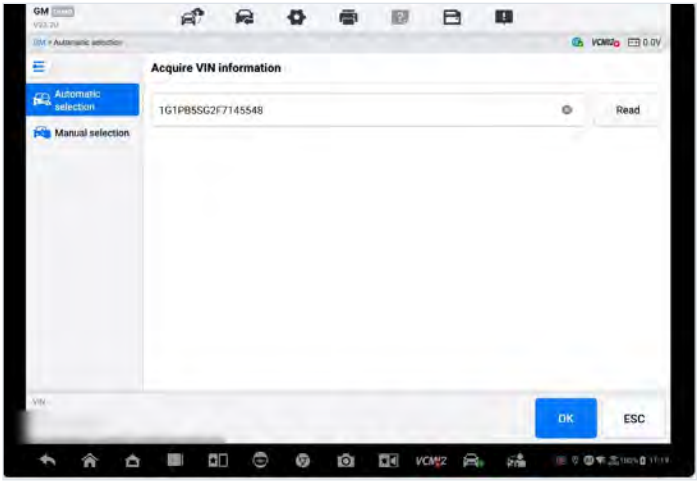
04 Enter a repair order

Enter the repair order number and tap OK, or select Stand-alone Diagnostics to continue without one.



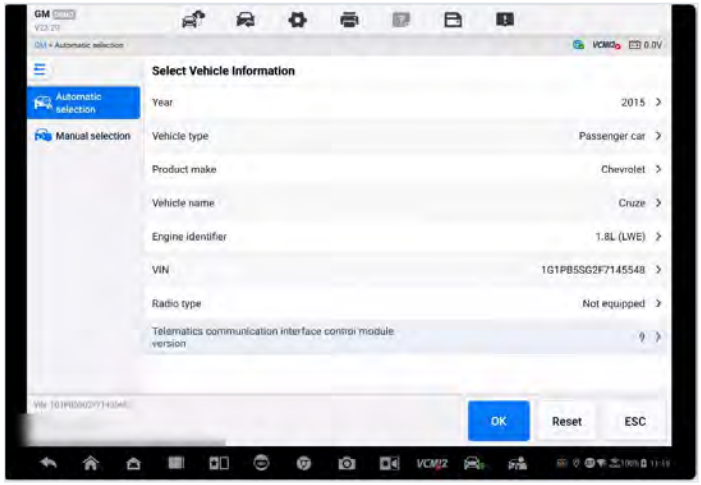
05 Read the VIN

Tap Read to retrieve the VIN automatically, or choose Manual selection.



06 Confirm and scan

Verify the year, make, model and engine. Tap OK, then run Auto scan to display the vehicle network topology.



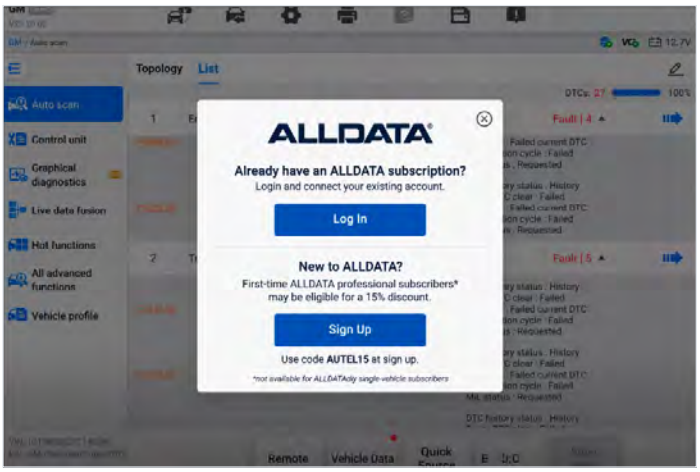
04 / FIRST-TIME LOGIN

Sign in once to get started

Use your ALLDATA® subscription credentials when prompted from any access method.

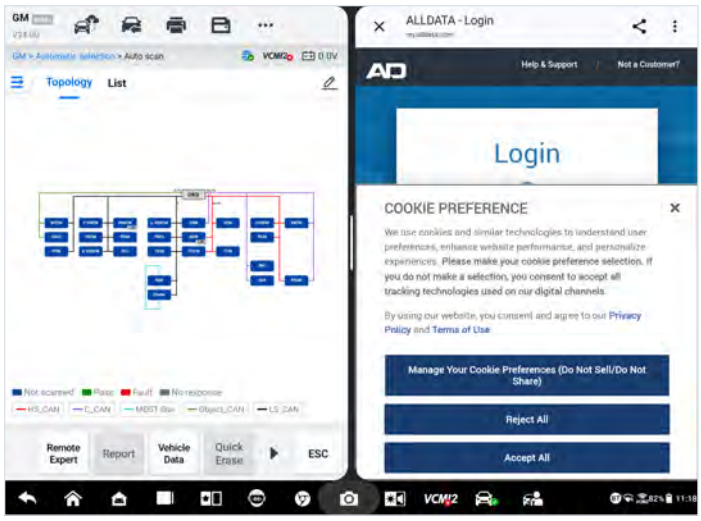
07 Select Log In

If the subscription pop-up appears, tap Log In. Quick Link may open the login page directly.



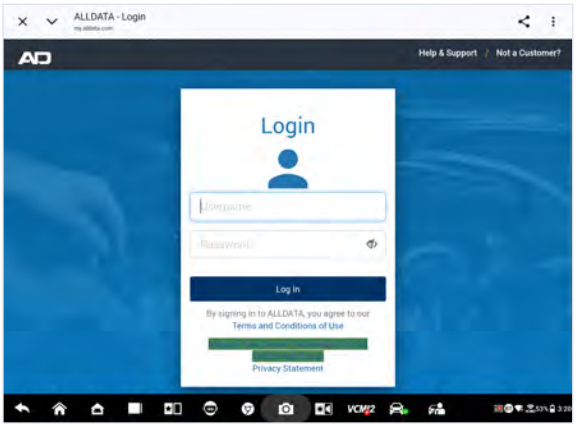
08 Set cookie preferences

If prompted, choose Accept All or Reject All. Either option lets you continue.



09 Enter your credentials

Enter your ALLDATA® username and password; tap Log In.



STAY SIGNED IN

Log in once with your ALLDATA® credentials. You do not need to re-enter them each time you access ALLDATA®.

After 28 days without accessing ALLDATA® you will need to log in again.

Quick Link works without a vehicle connection. Internet access and the required subscriptions are still needed.

New to ALLDATA®? Tap Sign Up in the subscription pop-up. Eligible first-time professional subscribers may qualify for 15% off with code AUTEL15. Excludes ALLDATAdiy® single-vehicle subscriptions.
