

AUTEL MAXIIM

APB300 KEY PROGRAMMER FOR VOLKSWAGEN GROUP MLB AND MQB VEHICLES

- The Autel APB300 Key Programmer enables technicians to add keys for Volkswagen AG MLB and MQB vehicles, including models from Audi, Volkswagen, Porsche, Bentley, and Lamborghini.
- Operates with Autel MaxiIM IM508 and IM608 series tablets, allowing locksmiths and technicians to perform advanced immobilizer and key programming functions.
- The APB300 includes two Autel replacement FOB circuit boards, IKCBAU3W and IKCBAU4W, which can be programmed as replacements for original Volkswagen AG key FOB circuit boards for MLB-platform vehicles.
- Technicians can read immobilizer data directly from a working key to add a new key, eliminating the need to remove the vehicle's instrument cluster during the programming process.
- The APB300 can also program Autel IKCBAU3P and IKCBAU4P (sold separately) programmable circuit boards, compatible with Volkswagen AG MLB platform vehicles.
- Program Autel Volkswagen/Audi-Style IKEY, P/N: IKEYVW3T (sold separately)
- Programmer and IKEY circuit boards are covered by a one-year limited warranty

P/N: APB300 ▶
