AN INTRO TO ADAS

Advanced driver-assistance systems (ADAS), are technological features that are designed to improve driver safety and prevent automotive accidents. ADAS utilizes sensors such as radar, sonar, lidar and cameras to perceive the world around the vehicle, and either provide critical information to the driver or take automatic action to avoid or mitigate the effects of a crash.

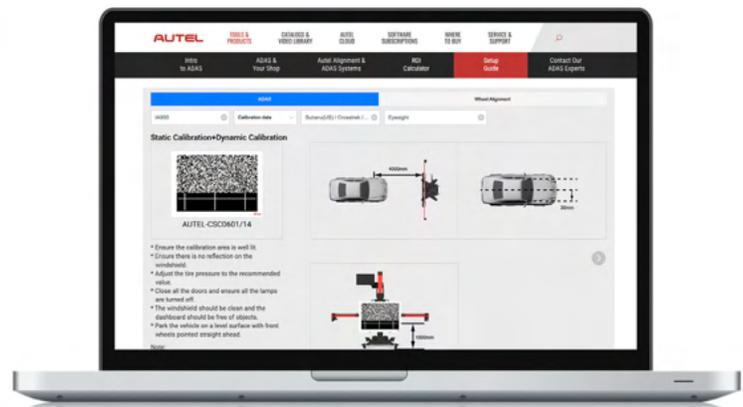

MAXIMIZE SERVICE PROFITS

ADAS is the fastest growing segment in automotive repair, with 99 million ADAS equipped vehicles already on North American roads and 210 million projected by 2030. ADAS should no longer be considered extra bells and whistles – it's here to stay.

- **HAVING YOUR OWN ADAS CALIBRATION SYSTEM SAVES YOU TIME AND MONEY THAT WOULD BE SPENT WORKING WITH ANOTHER SHOP**
- **IMPROVES CYCLE TIME AND GIVES YOUR SHOP FULL CONTROL OF THE REPAIR**
- **NO LONGER TRANSPORTING VEHICLES BETWEEN SHOPS INCREASES UP TIME**

ADAS SETUP & REVERSE LOOKUP GUIDE

Use the Autel ADAS Vehicle coverage and calibration guide to quickly reference vehicle make, model, and year for guidance on the calibration pattern, target, or component needed for specific safety system calibration and to view the vehicle-to-target or -component distance requirements.

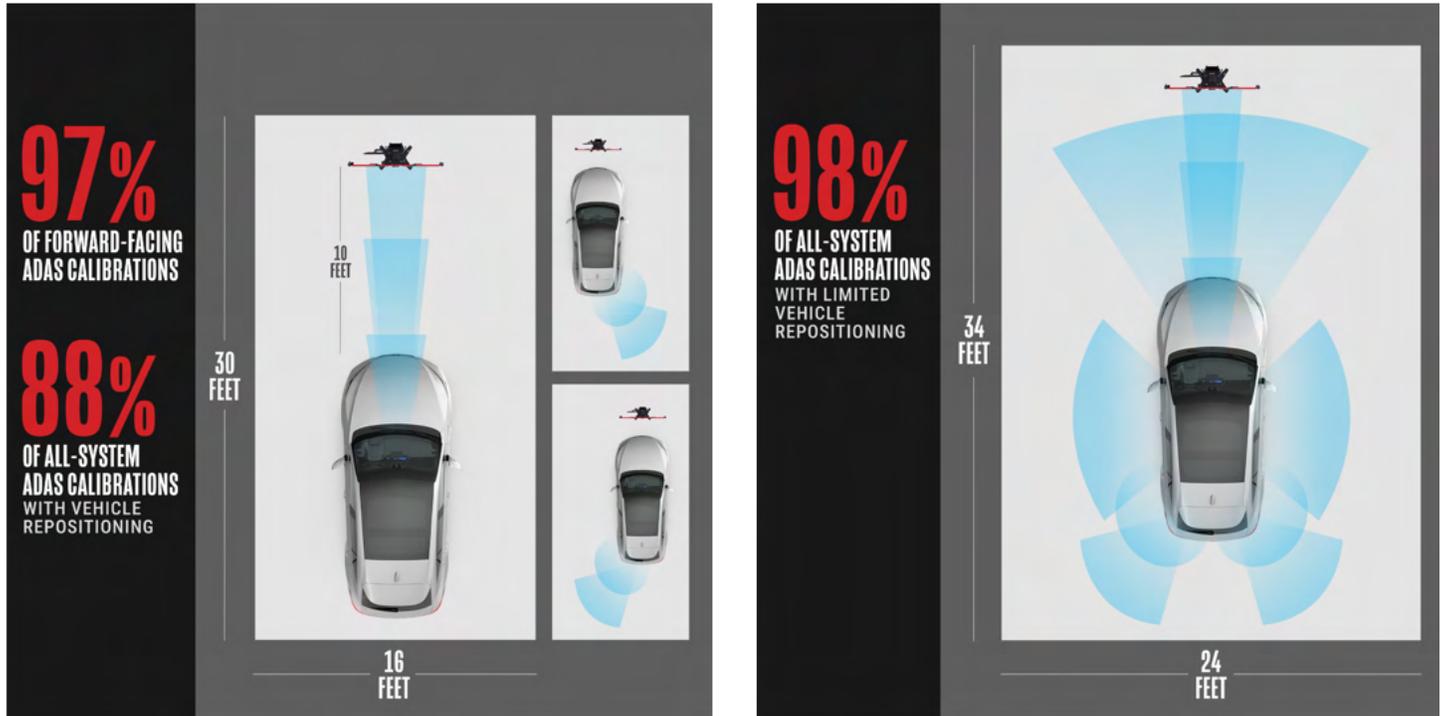

SCAN OR VISIT:
AUTEL.CC/ADAS-GUIDE

SHOP BAY REQUIREMENTS

It's a misconception that ADAS calibration requires large amounts of floor space. With Autel ADAS systems, highly profitable LDW calibrations can be performed with as little as 10 feet available in front of the vehicle. Blind Spot and even certain Around View Monitoring calibrations are possible within a 16' x 30' repair bay space with vehicle repositioning, while All Systems ADAS can be performed in a 24' x 34' foot space with limited repositioning of the vehicle.

NOTE: Spacial requirements for ADAS calibration are defined by the vehicle manufacturer and not the equipment manufacturer.

ADAS SYSTEM PACKAGES

Autel ADAS System packages are divided into 2 primary groups – Lane Departure Warning (LDW) and All Systems (AS). This approach lets you make the right purchasing decision based on your shop requirements and business goals.

LANE DEPARTURE WARNING (LDW)

Lane Departure Warning is one of the most common safety features on modern vehicles. LDW calibrations are not only required after many common repairs including wheel alignment and windshield repair, but are also highly profitable.

ALL SYSTEMS (AS)

All System ADAS packages are designed to eliminate ADAS calibration subletting, give complete control of the entire repair to your business, maximize efficiency and profitability, and deliver new revenue opportunities.

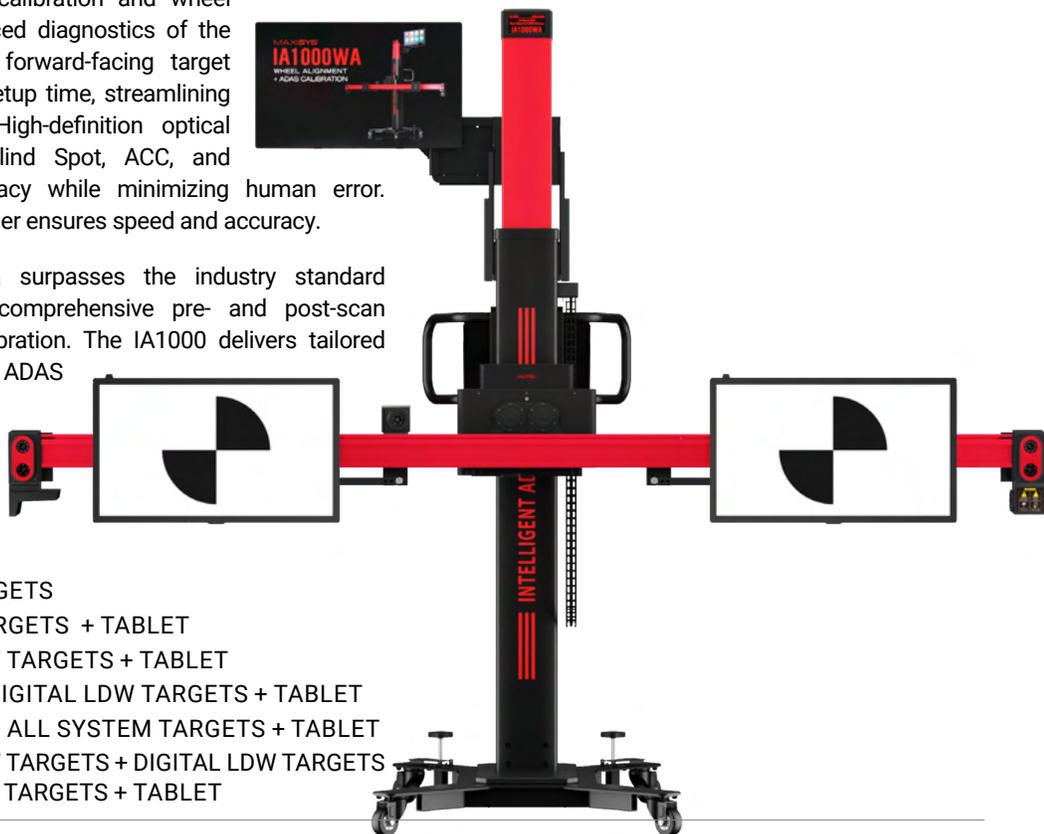

IA1000 AUTOMATED ADAS SYSTEM WHEEL ALIGNMENT + ADAS CALIBRATION

The IA1000 is a next-generation ADAS calibration and wheel alignment system powered by the advanced diagnostics of the MaxiSYS Ultra S2. Its robotic one-step forward-facing target positioning significantly reduces manual setup time, streamlining the process for maximum efficiency. High-definition optical cameras combined with laser-guided Blind Spot, ACC, and AVM pattern positioning enhance accuracy while minimizing human error. Automated unlevel floor compensation further ensures speed and accuracy.

The system's advanced alignment data surpasses the industry standard of camber, caster, and toe, while its comprehensive pre- and post-scan reports validate and document every calibration. The IA1000 delivers tailored solutions for wheel alignment, LDW, and ADAS calibrations to meet your needs.

IA900 ADVANCED ADAS SYSTEM WHEEL ALIGNMENT + ADAS CALIBRATION

For the cost of a typical alignment system, the Autel IA900 delivers an all systems and module health check, digital vehicle inspection, 3D wheel alignment, and step-by-step ADAS calibration instructions in a single system and investment. The Autel IA900 is the only system that starts and finishes through the OBDII connector, beginning with a full health check and digital inspection. These integrated steps deliver the highest revenue potential, the most comprehensive repair, a safer alignment, and a complete calibration of all effected ADAS systems.

PACKAGE PART NUMBERS:

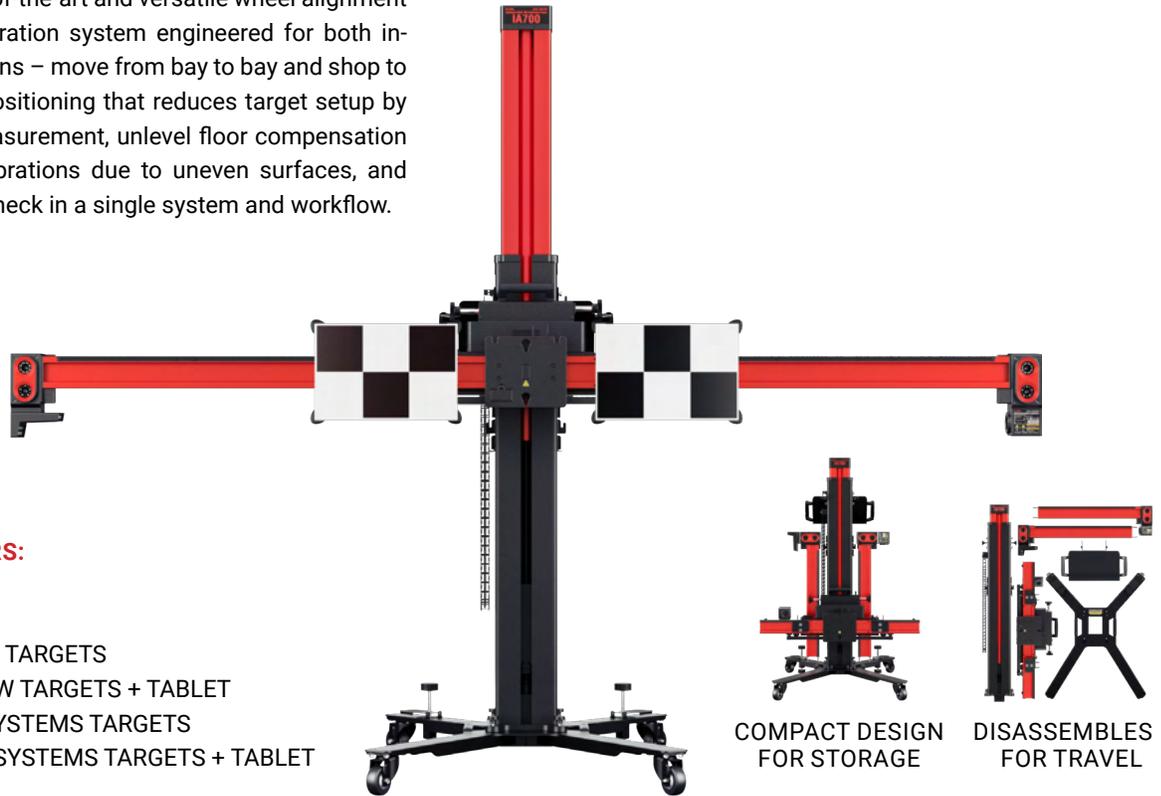

- IA900WA - FRAME ONLY
- IA900WAT - FRAME + TABLET
- IA900LDW - FRAME + LDW TARGETS

IA700 MODULAR ADVANCED ADAS SYSTEM

ALIGNMENT PRE-CHECK + ADAS CALIBRATION

The Autel IA700 is a state-of-the-art and versatile wheel alignment pre-check and ADAS calibration system engineered for both in-shop and mobile applications – move from bay to bay and shop to shop. It features optical positioning that reduces target setup by 6X versus mechanical measurement, unlevel floor compensation that eliminates failed calibrations due to uneven surfaces, and integrated alignment pre-check in a single system and workflow.

PACKAGE PART NUMBERS:

- IA700 - FRAME ONLY
- IA700T - FRAME + TABLET
- IA700LDW - FRAME + LDW TARGETS
- IA700LDWT - FRAME + LDW TARGETS + TABLET
- IA700AS - FRAME + ALL SYSTEMS TARGETS

SINGLE SYSTEM AND WORKFLOW

At the cost of a typical alignment system, the Autel IA900 delivers an All Systems Health Check, Digital Vehicle Inspection, 4-Wheel Alignment, and step-by-step ADAS Calibration instructions in a single system and investment.

WEBINAR: GETTING OFF THE ADAS SIDELINES: ADAS BUSINESS PLANNING FOR COLLISION CENTERS

An investment into ADAS is still widely considered to be “expensive”, however with the right tools, knowledge and plan, an investment can not only be recouped quickly, but ADAS can become a major revenue generating opportunity for collision repair centers. Don't just bring this work in-house, become the go-to ADAS calibration service provider in your area.

In this webinar, you will learn how to market your ADAS services to local shops, learn best practices and tips on engineering each repair order to maximize revenue, and gain the confidence to navigate both insurance invoicing and driver-paid repairs and calibrations.

WATCH THE FULL WEBINAR

PRECISE OPTICAL MEASUREMENTS

Six high-resolution positioning and tracking cameras in frame.

INTEGRATED 4-WHEEL ALIGNMENT

Increase shop efficiency and profitability with a single system and workflow.

AUTOMATIC ROBOTIC CROSSBAR

Cameras automatically locate proper calibration height, even with the vehicle on a lift.

A COMPLETE ALIGNMENT & ADAS SOLUTION

The Autel ADAS alignment workflow starts with a full Health Check and Digital Inspection. These integrated steps deliver the highest revenue potential, the most comprehensive repair, a safer alignment, and a complete calibration of all effected ADAS systems.

CASE STUDY: AUTEL ADAS EQUIPMENT COVERAGE TAKES REPAIR SHOP FROM 10 CALIBRATIONS A MONTH TO OVER 10 A DAY

Fuller's Collision Center in Auburn, Massachusetts is a repair shop that uses Autel ADAS solutions to solve pain points within its business and ramp up revenue via in-house ADAS repairs and calibrations.

The growth of ADAS has created new opportunities and challenges for auto repair shops, changing the landscape of vehicle collision repair. With these challenges come opportunities to increase your services to match the heightened demand for advanced calibrations. Investing in ADAS equipment can help keep jobs in-house, increase revenue, and enable faster ticket turnaround.

Read on to hear how Fuller's Collision used Autel's ADAS solutions to turn around vehicles in eight hours or less, with same-day or next to same-day calibrations, significantly decreasing the shop's cycle time – with no need to outsource to the dealership and lose potential revenue.

CASE STUDY: PRECISION DIAGNOSTICS

As with many successful businesses, **Precision Diagnostics**, a collision subletter headquartered in Wisconsin and servicing 1,500 shops across 11 Midwestern states, owes its success and dynamic growth to a mix of vision and hard work. But it may be how its owners, Tom McGuire and Dave Zielke, reacted to the challenges of the COVID lockdown that enabled it to develop into an industry leader.

"Autel is the flagship brand in ADAS calibration equipment. The MA600 allows for highly efficient mobile calibrations of front facing cameras and lane departure warning (LDW) systems on virtually any OE platform."

We started with one van and a relatively small shop, McGuire said. Familiar with the Autel tablets and appreciative of "the overall comprehensiveness of the unit", McGuire chose Autel as an ADAS tooling partner, and purchased the Autel Standard (Big Red) frame for the shop and a MaxiSYS MA600 portable calibration system for the van.

ADAS ACCESSORY ITEMS

All items sold separately

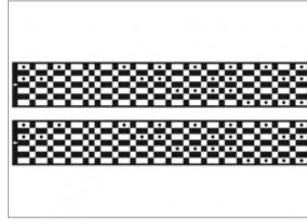

Subaru AVM Pattern Package
P/N: 1014-1718

Calibration kit for front and side cameras and Multiview display for select Subaru vehicles, including 2024 Ascent and 2025 Forester. Contains vinyl target/pattern mat and four placement guide mats.

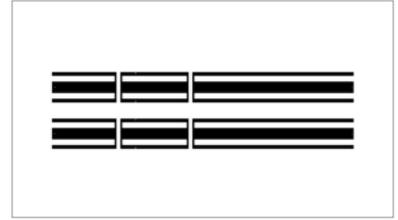

Porsche AVM Pattern Package
P/N: CSC1004-07

Calibrate AVM Camera systems on equipped Porsche vehicles. This oversized pattern is compatible with Autel ADAS Systems.

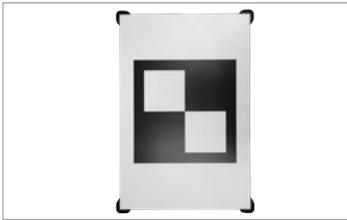

Ford AVM Pattern Package
P/N: CSC1004-05

Calibrate AVM Camera systems on equipped Ford vehicles. The two-piece pattern is compatible with Autel ADAS Systems.

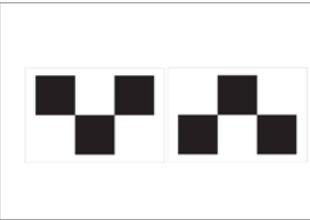

VW 360 AVM System Pattern Package
P/N: CSC1004-01

Calibrate AVM Camera systems on equipped Volkswagen vehicles. The two-piece pattern is compatible with Autel ADAS Systems.

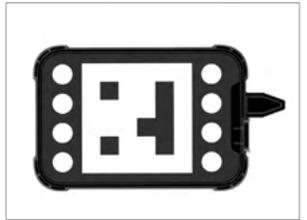

Subaru Mono Camera Wide Angle LDW Targets (Set of 3)
MODEL# CSC0611-05 P/N: 611-05

Needed for camera calibration on specific trim lines of Subaru Outback, Ascent, Legacy and Crosstrek vehicles. Compatible with all Autel frame systems. Standard, IA800 and IA900 frames require additional slider panel, sold separately.

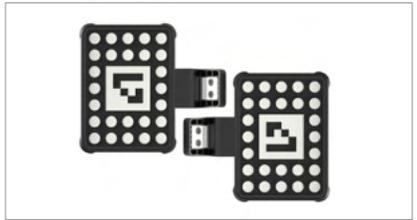

Maserati LDW Target
MODEL# CSC0611-03
P/N: 611-03

Use to perform static calibration of the applicable Maserati vehicle's front-facing camera. Compatible with the Standard and MA600 systems.

Ride Height Target
MODEL# CSC0500-20
P/N: 500-20

Enables rapid vehicle wheel height measurement and eliminates the need for manual measurement. Compatible with the IA900 system.

Wide Angle Target
MODEL# CSC0500-21 P/N: 500-21

Attaches to wheel targets when target visibility to camera is blocked. Get full chassis measurements after collision. Use when choosing Maximum Steering Angle during the caster/SAI screen. Compatible with the IA900 system.

IA900 Additional Slider Plate
P/N: IA900STP

Replacement sliding Target Panel compatible with the IA900 system.

Hand-Held Inclinometer
MODEL# CSC0500-29
P/N: 500-29

Aids in a four-wheel alignment of Mercedes-Benz vehicles. Pairs with MaxiSYS tablet and IA900 system.

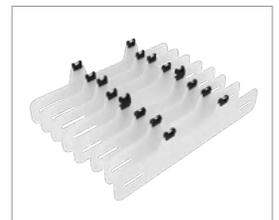

IA900 Tire Clamps (Set Of 4)
MODEL# CSC0500-17
P/N: 500-17

Attach to tires rather than to rims. Compatible with IA900 system and existing camera-tracking targets.

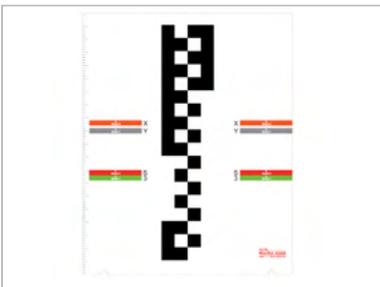

MaxiSYS Ultra ADAS Dock
MODEL# CSC90000-02
P/N: IA900DOCK

Enables power supply to tablet via docking station, allowing the unit to maintain power through operation.

Audi HUD Calibration Panels (Set Of 8)
MODEL# CSC0707
P/N: AUDIHUSET

Calibrate the headsup display (HUD) on older Audi vehicles.

Tesla LDW Target
MODEL# CSC0611-07 P/N: 611-07

Calibrates the camera system on Tesla S, X, 3, and Y vehicle models, 4-2019 and newer. Compatible with IA900 and MA600 systems. Requires appropriate Autel Testkit cable to connect to vehicle and tablet's VCI (sold separately).

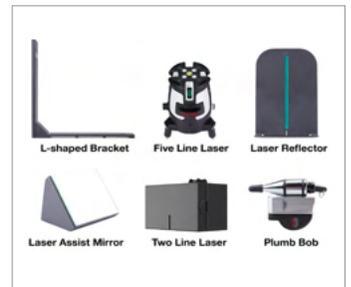

ADAS Blind Spot Aiming Tool Kit
P/N: ADASBAT

Enables technicians to quickly ensure correct angle alignments for successful calibrations of the Blind Spot sensors.

IA900 Storage Cabinet (Tire + Rim)
MODELS# CSC050B-01, CSC050B-02, CSC050B-03

P/N: 50B-01, P/N: 50B-02, P/N: 50B-03
50B-01 Metal storage cabinet with wheels for storage of IA900 tire clamps (T) or Rim clamps (R). 50B-02 Rim Clamp Brackets Only. 50B-03 Tire Clamp Brackets Only.

ADAS Accessory Kit (6 PCS)
P/N: ADASACCESSORY

This kit is used with Autel ADAS Systems. Enables the technician to perform ADAS calibrations quicker on other special ADAS calibrations.

ADAS ACCESSORY ITEMS

All items sold separately

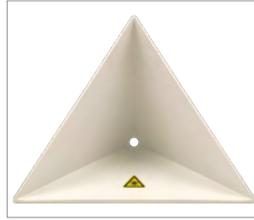

OE sized Corner Reflector Set (STAND)
MODEL# CSC0800
 P/N: 800

Includes stand, base, and handle. Use with Autel Corner Reflectors and Laser Emitter.

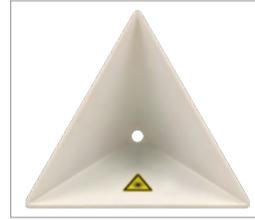

OE sized Corner Reflector Set (Laser emitter)
MODEL# CSC0802-13
 P/N: 802-13

Battery powered laser emitter, attaches between corner reflector stand and different size corner reflectors.

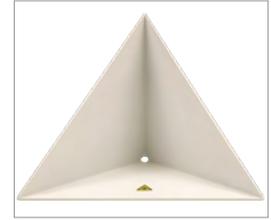

OE sized Corner Reflector Set (Toyota, Honda US, Subaru Blindspot)
MODEL# CSC0802-10
 P/N: 802-10

For radar calibrations involving Toyota, Honda, and Subaru BSM functions.

OE sized Corner Reflector Set (Hyundai, Mazda)
MODEL# CSC0802-11
 P/N: 802-11

For radar calibrations involving Hyundai, and Mazda ACC BSM functions.

OE sized Corner Reflector Set (Mitsubishi)
MODEL# CSC0802-12
 P/N: 802-12

For radar calibrations involving Mitsubishi BSM functions.

Wide-Angle Target Extensions for Maximum Steering Angle Caster Sweeps
 P/N: WATEXT

For IA900, adapter that extends Wide Angle Targets (CSC0500-21) out even further for max steer procedure, as needed.

Replacement Claws
MODEL# CSC0500-17-A
 P/N: 500-17A

For IA700 IA900 Tire clamps claws replacement, 3 red claws per box, good for 1 wheel.

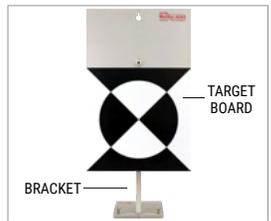

Long Claws for Dually Trucks
MODEL# CSC0500-17-B
 P/N: 500-17B

For IA700/IA900 Extended tire clamps for dually wheels, 3 red claws per box, good for 1 wheel.

CHRYSLER TARGET
MODEL# CSC0602-09
 P/N: 602-09

Radar Calibration Plate for 2021 and newer Chrysler/Dodge/Jeep/RAM

New AVM Target & Bracket Pack (Toyota, Lexus)
MODEL# CSC0804-03
 P/N: 804-03

For Newer Toyota Lexus AVM calibration procedure. 3 minimum required for calibration (up to 8). Sold as EA.

New PVM Toyota Expansion Pack

MODEL# CSC1004-10-(D13-D19) P/N: 1004-10D1319

For Newer Toyota Lexus AVM calibration procedure. *Requires CSC1004_10 Toyota AVM to work*

Storage Bracket to Store Large Target Boards
Model# CSC1500-09
 P/N: 1500-09

To store Autel ADAS target boards, 3 slots fits multiple sizes.

Small Brackets for Pattern Board on Standard Frame/IA800
Model# CSC050A-05
 P/N: 50A-05

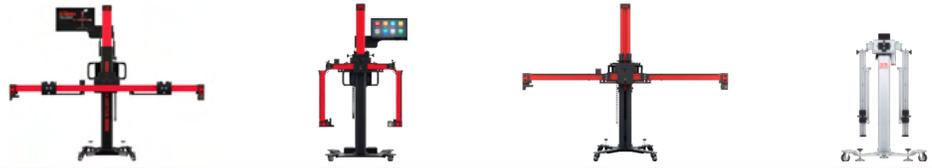

For Autel Standard frame and IA800 frame, allows non magnetic roller ADAS targets to fit on the frame.

Items Introduced Q4 2024

CHOOSING THE RIGHT ADAS SYSTEM & PACKAGE

STEP 1. CHOOSE A BASE AUTEL ADAS SYSTEM

Examine the top features and capabilities of each system carefully. Choose the Autel System that best aligns with your business requirements and goals.

TOP FEATURES	IA1000	IA900	IA700	MA600
Portable ADAS Move from Shop to Shop			✓	✓
In-Shop Mobility Move from Bay to Bay	✓	✓	✓	✓
Wheel Alignment Pre-Check	✓	✓	✓	
Full Wheel Alignment	✓	✓		
Mechanical Measurements for Target Positioning				✓
Fully Optical Target Positioning for Increased Accuracy and Faster Setups	✓	✓	✓	
Unlevel Floor Compensation to Eliminate Uneven Floors as an Obstacle	✓	✓	✓	
Guided ADAS to Calibrate ADAS on Late Model Vehicles	✓	✓	✓	
Fully Automated Forward-Facing Calibration Plus Optional Digital LDW Targets	✓			

STEP 2. CHOOSE AN AUTEL ADAS SYSTEM PACKAGE

Align the capabilities and opportunities of Lane Departure Warning (LDW) versus All Systems (AS) ADAS with your shop environment and business goals. Choose the Autel System Package that best fits your needs.

	IA1000	IA900	IA700	MA600	
LANE DEPARTURE WARNING (LDW) ADAS PACKAGES	COMMON LDW APPLICATIONS & OPPORTUNITIES ADAS Calibration for Glass Repair / LDW Calibrations within a 16' x 30' Repair Bay / Scalable Platform: Add All Systems ADAS Later				
	Part Number - Including Tablet	IA1000TDT, IA1000LDWT, IA1000LDWTD	IA900LDWT	IA700LDWT	MA60020T
	Part Number - No Tablet	IA1000DT	IA900LDW	IA700LDW	MA60020
ALL SYSTEMS (AS) ADAS PACKAGES	COMMON ALL SYSTEMS APPLICATIONS & OPPORTUNITIES Full Service In-House ADAS Calibration / 98% of All Calibrations within a 24' x 34' Space / Become the ADAS Service Provider in Your Area

AUTEL GUIDED ADAS ELIMINATE LATE MODEL SOFTWARE LAG

Autel prides itself on the fastest OE-released coverage to market in the industry. Still, we depend on vehicle manufacturers to share the latest model diagnostic, servicing, and calibration software and specifications, which creates a lag time for the newest vehicle coverage to reach our tablets. **Autel Guided ADAS eliminates that lag.**

SUBSCRIPTIONS AND TOOLS

Pair your existing Autel MaxiSYS tablet, and ADAS frame and targets with a local laptop and OE subscription or an OE tool to calibrate the safety and convenience systems on late model vehicles. Combine the maximized efficiency of Autel optical

positioning with the most current OE coverage. **If OE services are unavailable, the Autel Remote Expert platform enables access to experienced technicians with OE tools or subscriptions to complete the calibration.**

AVAILABLE ON THE IA1000, IA900 & IA700
