20 YEARS

FULL TOOL CATALOG

AUTEL®

AUTEL IS A LEADING DEVELOPER, MANUFACTURER, AND DISTRIBUTOR OF PROFESSIONAL AUTOMOTIVE DIAGNOSTIC TOOLS, EQUIPMENT, AND ACCESSORIES. AUTEL IS COMMITTED TO PRODUCING LEADING-EDGE TOOLS PROVIDING CUSTOMERS WITH ENDURING VALUE AND SUPERIOR TECHNOLOGY.

Autel's dedication to research and development for 20 years enabled this global company to create products that have consistently met or exceeded customers' expectations in value, quality, and functionality.

Professional technicians in more than 50 countries worldwide, including the United States, Germany, the United Kingdom, Dubai, and Australia, use Autel products.

Autel's landmark tools include its flagship MaxiSYS line of comprehensive, advanced diagnostics tablets that enable technicians to perform OE-level diagnostics on U.S., Asian, and European vehicles, 1996 and newer. Functionality includes performing all systems module scans and advanced coding and adaptations.

With a successful background in diagnostics, Autel confidently expanded its product line into the Tire Pressure Monitoring System (TPMS) servicing, Key and Immobilizer Programming, Battery and Charging Systems Analysis, and Advanced Driver Assistance System (ADAS) calibration markets.

Autel remains dedicated to providing technicians with progressive software and tools designed to meet the challenges of servicing the vehicles of today and tomorrow.

WE CONSTANTLY STRIVE TO IMPROVE THE EFFICIENCY OF OUR PRODUCTS AND SEEK TO OFFER OUR END-USER TECHNICIANS THE MOST EFFECTIVE AND VALUE-DRIVEN DIAGNOSTIC AND SERVICE PRODUCTS ON THE MARKET

-Chloe Hung, CEO, Autel North America

MAXISYS MSULTRA

12.7" TOUCHSCREEN DIAGNOSTIC TABLET WITH SPLIT SCREEN & VCI

Our most advanced diagnostic system, featuring a 12.7-inch tablet that offers comprehensive vehicle and systems coverage, bi-directional Active Tests and Special Functions, coding and adaptation capability, all systems Pre- and Post scanning with ADAS identification, OE-style module topology, an extensive service menu, and in-depth, customizable reports with on-tablet or cloud-based storage. This Android-based touchscreen tablet with split-screen capability comes with the multi-functional MaxiFlash VCI. This Wi-Fi and Bluetooth-capable device is an enhanced vehicle communication device (VCI), J2534 pass-thru programmer, 4-channel oscilloscope, digital multimeter, CAN bus tester, and waveform generator.

PART NUMBER: MSULTRA

MAXISYS MS919

9.7" TOUCHSCREEN DIAGNOSTIC TABLET WITH VCI

Featuring the same comprehensive vehicle, systems, and service software as the Ultra with 9.7-inch screen and 128GB storage space. Also includes the multi-functional MaxiFlash VCI enhanced vehicle communication device (VCI), J2534 pass-thru programmer, 4-channel oscilloscope, digital multimeter, CAN bus tester, and waveform generator.

PART NUMBER: MS919

MAXISYS MS909

9.7" TOUCHSCREEN DIAGNOSTIC TABLET WITH VCI

Featuring the same comprehensive vehicle, systems, and service software as the Ultra and the MS919 and mirrors the MS919 in hardware specifications such as size (9.7-inch screen), storage space (128GB), and battery life. The MS909 system includes the MaxiFlash VCI that offers the same enhanced communication protocols and J2535 pass-thru capabilities of the Ultra and MS919-equipped MaxiFlash VCI unit without testing and measurement functions.

ADDITIONAL FEATURES

- Supports Latest Vehicle Communication Protocols
- 1 Year Free Updates Via Wi-Fi
- Automatic Auto-Vin, Auto-Scan, Scan-Vin, Plate Scan Detection
- Secure Gateway module access on Stellantis (Dodge, Chrysler, Jeep, RAM, Fiat, Maserati and Alfa Romeo) and late-model Nissan vehicles with an AutoAuth account
- Extensive Vehicle Coverage Of US, Asian, and European Passenger, Light Duty, Some Medium Duty Vehicles, 1996 and Newer
- All 10 OBDII Test Modes Live & Freeze Frame And Enhanced Mode 6
- Reset Diesel PM Emissions Light & Medium Duty Vehicles
- System Diagnostics Access For All Modules In All Systems
- Color-Coded Topology Module Mapping For All System Status Screen On Supported Vehicles
- Perform ADAS Calibrations with an ADAS Upgrade and Frame Kit (Purchase Required)
- Battery, starter, and charging system testing available when paired with the MaxiBAS BT506 (Purchase Required)
- Add video inspections to your tablet by purchasing the MaxiVIDEO MV108S or MaxiVIDEO MV105S

PROFESSIONAL DIAGNOSTIC TABLET

MAXISYS MS906 MAX

PROFESSIONAL DIAGNOSTIC TABLET

The newest diagnostic tablet in the MaxiSYS 906 series, delivers everything users expect and more from this workhorse and go-to tablet line. The MS906MAX features a larger 10.1-inch high-resolution touchscreen, is powered by a powerful Octa-Core processor for quicker scans, tests, and actions, and boasts 128GB of storage space for full vehicle coverage accommodation and includes the MaxiVCI VCI200 communication device that supports the latest vehicle protocols.

PART NUMBER: MS906MAX

MAXISYS MS906 PRO-TS

PROFESSIONAL DIAGNOSTIC & TPMS TABLET

The MaxiSYS MS906Pro-TS is an 8-inch wireless diagnostic tablet. It offers comprehensive TPMS servicing with an embedded antenna to activate and read all known TPMS sensors and program Autel 1-Sensors. Professional diagnostic capabilities include all-system scans, ADAS identification, code reading/erasing, live data, bi-directional control and tests, and service tasks.

STAY CURRENT AND DON'T MISS OUT ON VALUABLE BENEFITS & TOOL FUNCTIONALITY

Get the most out of your Autel diagnostic tools with the Autel Total Care Program, available on most MaxiSYS Tablets. More information on page 58.

REMOTE DIAGNOSTICS

MAXIFLASH XLINK

A 3-in-1 device functioning as an enhanced VCI supporting the latest vehicle communications protocols, a J2534 pass-thru programmer, and a Remote Expert (RE) platform interface. Via the RE platform, technicians can contract with experienced programmers and technicians with O.E. software and tools to perform module programming, O.E. pre- and post-scans, and ADAS calibrations on new vehicles.

PART NUMBER: XLINK

ACCESS OEM SERVICES ON YOUR AUTEL TOOL

Carrying active OEM subscriptions for all manufacturers is not possible for many shops. However, access to this software is required for certain modern vehicles and repairs, and for validating pre- and post-scans. This is why Autel created the Remote Expert, a cloud-based solution offering shops and Technicians access to brand-specific Diagnosticians with the expertise to perform remote module programming, coding, late model ADAS calibrations, and the access to the OEM software to get the job done quickly and accurately.

EXTENSIVE COVERAGE

Access Pre-qualified and Brand-specific Diagnosticians and All OEM Software and Tools

REMOTE INTERFACE

Remote Transmission Module and ECM Programming, ADAS Calibration, Pre- & Post-scans

STREAMLINED INFORMATION

Create Orders Quickly and Easily With Auto Populated Vehicle ID and Health Scan Report

EASILY INITIATE A REMOTE EXPERT SESSION DIRECTLY FROM YOUR AUTEL MAXISYS MSULTRA, MS919, MS909, OR XLINK

THE MOST UP-TO-DATE INFORMATION TO REPAIR AND SERVICE VEHICLES QUICKLY AND CORRECTLY

EXPANSIVE OEM SERVICE AND REPAIR CONTENT

Comprehensive content covering component locations, diagnostic trouble codes (DTCs), maintenance schedules, repair procedures, specifications, technical service bulletins (TSBs) and circuit diagrams/connection diagrams. Also includes OEM Position Statements and ADAS-related repair details.

SINGLE LOCATION REPAIR DETAILS

Associated content (related repair details, required tools, warnings) is presented with service procedures in a single location, ensuring that end users do not waste time looking for the information they need.

ADVANCED SEARCH CAPABILITIES

Advanced "global search" includes ability to dig deep into content—beyond just the headers—to ensure only the best possible matches are presented based on search criteria provided.

FASTER TIME-TO-MARKET AND IMPLEMENTATION

New content available within days of being published by the OEM and VIN-specific carryover of year, make, model, and engine. Plus access to vehicle-specific repair information.

EV & HYBRID DIAGNOSTICS

■ MAXIFLASH ADVANCED VCMI 5-IN-1

■ MAXIFLASH VCI

■ EV DIAGNOSTICS BOX

MAXISYS MSULTRA EV

ADVANCED E.V., HYBRID, GAS, AND DIESEL VEHICLE DIAGNOSTICS

Offering advanced diagnostics for electric, hybrid, gas, and diesel vehicles, this 12.7-inch Android-based touchscreen tablet features enhanced network topology and battery pack analysis via OBDII or direct access with the included EVDiag box and specialty cables. Kit includes MaxiFlash VCMI, a 5-in-1 communications and measurement device with a 4-channel oscilloscope, multimeter, CAN bus tester, and waveform generator capabilities, in addition to it being a J2534 pass-through programmer and enhanced VCI.

PART NUMBER: MSULTRAEV

MAXISYS MS909 EV

ADVANCED E.V., HYBRID, GAS, AND DIESEL VEHICLE DIAGNOSTICS

A smaller (9.7-inch touchscreen) tablet than the UltraEV, the MS909EV offers the same advanced diagnostics and service coverage as the Ultra E.V. for electric, hybrid, gas, and diesel vehicles, and includes the dedicated EVDiag Box for comprehensive battery analysis and the MaxiFlash VCI. The MaxiFlash VCMI Kit can be purchased separately to upgrade the MS909EV measurement and testing capabilities.

TESLA 3 AND Y COMPATIBLE ADAPTER

PART NUMBER: TESKIT3Y

TESLA COMPATIBLE DIAGNOSTIC CABLE

PART NUMBER: TESCDAC

EV & HYBRID DIAGNOSTICS

MAXIEV CDT100

HV BATTERY DISCHARGE AND CHARGE UNIT

A high-voltage battery charger and discharger designed to improve battery pack capacity via constant current charge/discharge modes. It displays single-cell voltage data in graphs, columns, and reports. The unit is necessary for E.V. transporters, repair shops, salvage yards, and warehouses for safe battery storage and shipping requirements.

PART NUMBER: CDT100

MAXIEV ALT100L

EV BATTERY ENCLOSURE INTEGRITY TESTER

The MaxiEV ALT100L's ability to test high-voltage battery enclosures and thermodynamic systems for leaks makes it an essential tool for shops working on E.V.s. It features a real-time dual-pressure display, high-sensitive sensors for improved accuracy, and customizable presets. The tester offers on-screen monitoring and automatic test saving.

PART NUMBER: ALT100L

MAXIEV ITS100

HV ELECTRICAL COMPONENT INSULATION & RESISTANCE TESTER

An E.V. insulation resistance tester and a must-have tool for all shops working on high-voltage vehicle systems. It applies D.C. voltage (50V-1000V) to components to measure current flow, detecting insulation damage or contamination. It offers visualized data for easy analysis during maintenance.

PART NUMBER: ITS100

SERVICE TOOLS

 **ADVANCED SERVICE & SYSTEM CODE READER**

 **SYSTEM CODE READER**

 **ALL SYSTEM DIAGNOSTICS**

MAXICHECK MX900

ALL SYSTEMS & SERVICE TABLET

An 8-inch touchscreen, all-systems, and service tablet. This corded tablet can read and erase codes, view freeze frame and, view and graph live data, and perform Active Tests and Special Functions. The MX900 is also a full-featured service tablet with more than 40 Service and maintenance tasks, including brake bleed, oil and service lights resets, battery registration, DPF regen, and electronic parking brake and steering angle sensor resets.

PART NUMBER: MX900

MAXIDIAG MD808 PRO

ALL SYSTEMS & SERVICE HANDHELD TOOL

The MD808Pro is an advanced all systems code reader featuring AutoSCAN of all available vehicle systems. Featuring a 4-inch color screen, the MS808Pro can graph/record/playback live data, display freeze frame data, and supports all 10 OBDII test modes, including Mode 6. Features quick I/M readiness/emissions testing, and can perform six service tasks including DPF Regen. The MD808P is updatable via PC.

PART NUMBER: MD808P

AUTOLINK AL629

4-SYSTEM CODE READER

The AutoLINK AL629 reads and erases engine, ABS, SRS, and transmission system codes on 1996+ domestic, Asian, and European vehicles. It retrieves VIN, CALID, CVN, displays and graphs Live Data, supports all 10 OBDII modes, and includes I/M Readiness and Mode 6 data. Features a 2.8" LCD display, and P.C. report printing.

PART NUMBER: AL629

AUTOLINK AL549

ENGINE AND ABS CODE READER WITH BATTERY, STARTER, AND CHARGING TESTS

The AutoLINK AL549 scans U.S., Asian, and European vehicles (1996+), reading/erasing engine and ABS codes. It displays Freeze Frame and Live Data with color-coded Fault and I.M. Readiness status. It supports all 10 OBDII modes, and offers basic battery, starter, and charging system testing.

PART NUMBER: AL549

AUTOLINK AL329

ENGINE CODE READER

Enables users to scan for engine codes on 1996 and newer vehicles. Quickly check the malfunction indicator light status and cause. OneClick I/M Readiness (Emissions) Status checks the vehicle's emissions compliance. Read and Clear Current, Pending, and Permanent Codes and query Freeze Frame Data. The color display and simple key navigation make using this tool fast and easy.

PART NUMBER: AL329

MAXIAP AP2500

SMARTPHONE VEHICLE DIAGNOSTICS

An app-based diagnostics and service tool compatible with Android and iOS phones that can perform All Systems diagnostics on one 1996 and newer vehicle brand (with additional brand coverage available with in-app purchases.) Read and erase codes, perform emissions-readiness tests, and view Freeze Frame. Performs several common service tasks: battery registration, TPMS sensor relearn, and oil light service reset.

COMMERCIAL VEHICLE DIAGNOSTICS

MAXISYS MS909 CV

ADVANCED COMMERCIAL AND OFF-ROAD VEHICLE DIAGNOSTIC TABLET

A 9.7-inch wireless Android diagnostic tablet for light to heavy-duty vehicles, including off-road equipment. Featuring all-systems scanning, network topology, bi-directional controls, and live data graphing for Class 1-9 vehicles. Expert Mode provides direct access to OE systems like engine, transmission, and braking. The MS909CV supports dynamic and static ADAS calibrations (static requires purchasing of an Autel CV ADAS package) and includes the MaxiBAS B200, Deutsch 6 & 9 Pin set, Full Probe Set, and MaxiFlash VCI/J2534 programmer.

PART NUMBER: MS909CV

MAXISYS MS908 CVII

PROFESSIONAL COMMERCIAL VEHICLE DIAGNOSTICS TABLET

A 9.7-inch wireless diagnostic and service tablet for light, medium, and heavy-duty vehicles. It offers all-systems fault detection, code reading/erasing, live data viewing/graphing, and bi-directional control. The Android-based tablet features Expert Mode for direct analysis of vehicle systems, including engines, brakes, and transmissions. It offers an extensive menu of service and maintenance tasks, including DPF Regen, brake bleed, and oil light reset. Includes the MaxiFlash VCI and J2534 pass-thru device.

* Additional purchase of the VCI200 is required to access the latest protocols for light duty vehicles 2018 and newer.

PART NUMBER: MS908CVII

COMMERCIAL VEHICLE DIAGNOSTICS

MAXIVCi VCI200

COMMERCIAL VEHICLE DIAGNOSTICS

MAXIDIAG MD600 CV

HANDHELD CV DIAGNOSTICS AND SERVICE TABLET

A heavy-duty diagnostic tablet for Class 3 to 9 vehicles, designed for fleet technicians and operators. It offers advanced diagnostics and service tasks for systems like Engine, Exhaust, ABS, and DPF Regen. It includes a wireless MaxiVCI V200 that supports the latest CV vehicle protocols.

PART NUMBER: MD600CV

AUTOLINK AL529 HD

HEAVY DUTY VEHICLE ENGINE CODE READER

The AutoLINK AL529HD is a heavy-duty engine code reader for Class 1-9 vehicles (0-33,000 lbs). It reads/erases engine DTCs, supports J1939/J1708 protocols, and displays live/freeze frame data. It supports all 10 OBDII modes, one-click I/M readiness, and Mode 6 diagnostics. The AL529HD features a color screen and includes Deutsch 9/6-pin connectors, OBDII cable, and PC updates.

MAXISYS MS909 DIAGNOSTIC TABLET

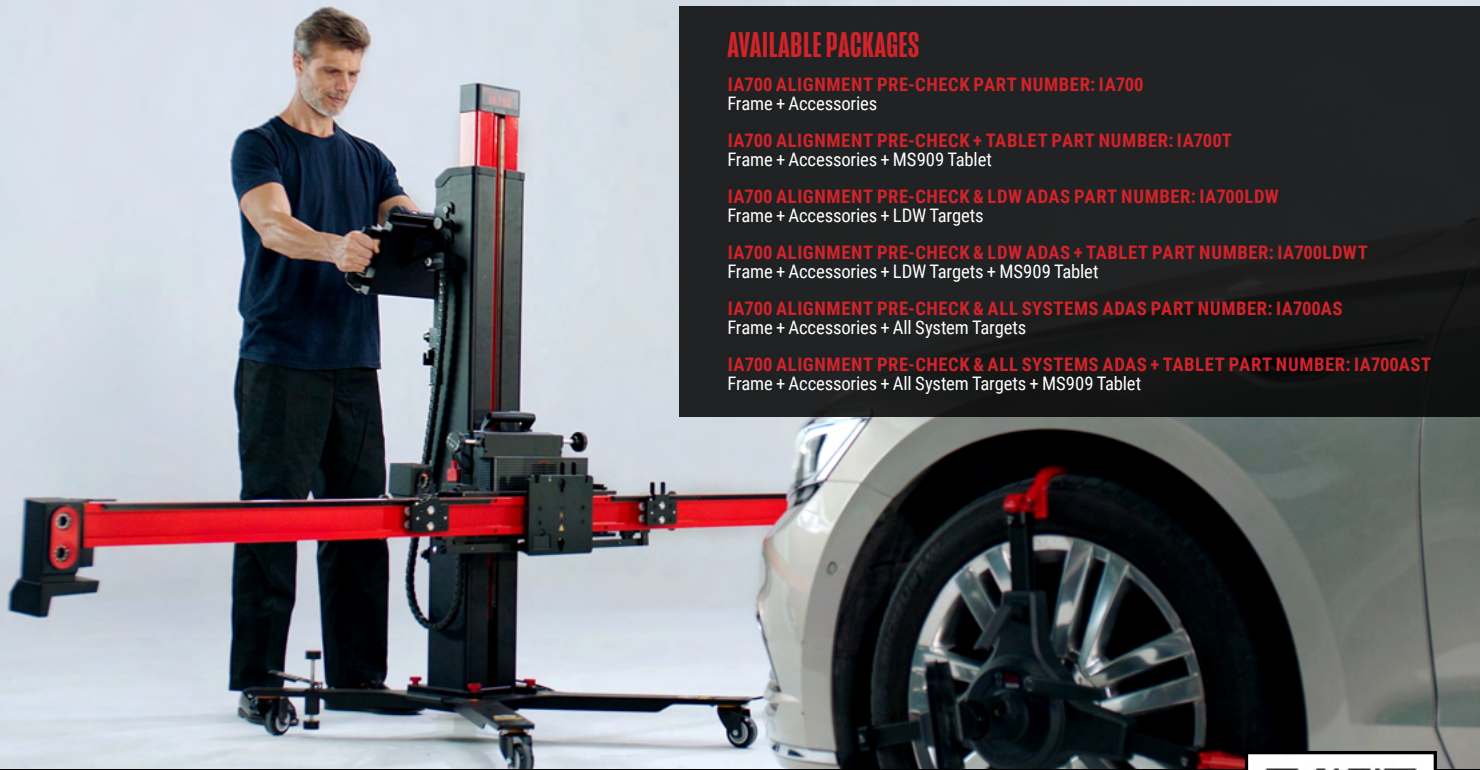

MAXISYS IA700 MODULAR ADVANCED ADAS SYSTEM

ALIGNMENT PRE-CHECK + ADAS CALIBRATION

A modular ADAS calibration system with a robotic crossbar and six high-resolution cameras providing alignment precheck, optical positioning calibration setup, an unlevel floor compensation industry-leading vehicle, and all systems ADAS calibrations. Offered in frame-only, Lane Departure Warning (LDW), and All-Systems ADAS calibrations packages. Compatible with MA600 and IA900 targets, it enhances the speed and accuracy of optical positioning for MA600 users and doubles calibration capacity for IA900 users without extra targets. The frame disassembles for easy transport and storage and includes tire clamps with camera targets, a steering wheel lock, brake chocks, a power supply, an alignment aid, and a frame cover. Systems offer comprehensive diagnostic, repair, service, and reporting capabilities powered by the Autel MaxiSYS Ultra, MS919, and MS909 tablets (purchased separately or included with system packages).

ADAS BAY MAX LIFT

The ADAS Bay Max is a purposefully built flush-mount scissor car lift, engineered to perform mechanical repair, wheel alignment, and 360 ADAS calibration in a single standard alignment bay space.

The heavy-duty rolling jack beam, and the industry's first flush-mount H Shape and table riser configuration allow for safer and more efficient wheel alignments, and when recessed into the floor the same space becomes a flat 360-degree ADAS calibration environment.

Compatible with passenger cars and light trucks, this premium hydraulic lift is available in 12,000 and 14,000-pound capacity versions, both with front and rear opening runways, flip-down wheel stops, and low angle approach ramps for easier access. The ADAS Bay Max also features stainless steel front radius plates and rear slip plates and turn plate pocket protectors for more effective paint protection.

The Autel ADAS Bay Max is Made in North America and ALI Certified and includes a one-year limited warranty on lift parts, five-year warranty on hydraulic jack parts, one-year warranty on lift table parts and hydraulic components, 90-days on front turn plates, rear slip plate and bearings, and air kit and LED lighting kits.

PART NUMBER: AULS12ALOR1T / AULS14ALOR1T

WHEEL ALIGNMENT

ALL SYSTEMS ADAS CALIBRATION

ALL SYSTEMS ADAS CALIBRATION. SAFER ALIGNMENTS. ONE MAXIMIZED BAY.

PREMIUM LIFT FEATURES

The innovative table riser, rolling jacking beams, stainless steel radius plates, runway air inflation, and LED undercarriage lighting are all standard.

DRIVE ON/OFF IN ANY DIRECTION

Front and rear open runways paired with the unique flush-mount H shape configuration increases floor space, allowing for all systems ADAS calibration.

SAFER REPAIRS & ALIGNMENTS

The flush-mount, H shape, and table riser allow for safer and more efficient repairs and wheel alignments by eliminating the obstructions of a 4-post lift or the tripping hazards of a recessed pit.

ALIGNMENT SCISSOR LIFT

The Autel Alignment Scissor Lift is a surface-mounted hydraulic car lift compatible with passenger cars and light trucks and is available in 12,000 and 14,000-pound capacity versions.

Low angle approach ramps are included for easier access. The Autel Alignment Scissor Lift features stainless steel front radius plates and rear slip plates and turn plate pocket protectors for more effective paint protection.

Built-in runway air tire inflation kits at each wheel, shatterproof undercarriage LED lighting with automatic shut off, and an enclosed console power control unit are also standard.

The Autel Alignment Scissor Lift is Made in North America and ALI Certified and includes a one-year limited warranty on lift parts, five-year warranty on hydraulic jack parts, one-year warranty on lift table parts and hydraulic components, 90-days on front turn plates, rear slip plate and bearings, and air kit and LED lighting kits.

MAXITPMS TS900

3-IN-1 TPMS, DIAGNOSTICS, AND SERVICE TABLET

An 8-inch wireless touchscreen tablet offering TPMS, diagnostics, and service functions. It activates, reads, and relearns all TPMS sensors, including Tesla OE and Autel BLE sensors, and programs the Autel 1-Sensor. It provides basic diagnostics like reading/clearing codes, Freeze Frame, and Live Data, and advanced features like Active Tests and Special Functions. The tablet supports over 40 service functions, including oil reset and brake bleed.

PART NUMBER: TS900

MAXITPMS ITS600/600 PRO

HANDHELD TPMS SERVICE TABLET

A wireless, Android-based 5.5-inch tablet offering complete TPMS diagnostics and four service functions. Featuring an enhanced TPMS status screen, activates and relearns all TPMS sensors, and programs MX-Sensor 1-Sensors to replace 99% of OE sensors. Supports DOT scanning for recall lookup and tire registration (CIMS account required).

Upgrade to the Pro version for all-systems and service diagnostics. Pair with the TBE200 tool for tire wear measurement and detailed customer reports.

PART NUMBER: ITS600 - ITS600 / ITS600PRO - 700150

MAXITPMS TS508 WF

SPECIALIZED TPMS SERVICE TOOL

A rugged handheld TPMS service tool that offers complete TPMS service capabilities. Use the TS508WF to read, activate, and relearn all known TPMS and program MX-Sensor 1-Sensors to replace 99% of OE TPMS sensors. Displays OE-specific relearn instructions and performs OBDII relearn on supported vehicles. Features color-coded at-a-glance TPMS status for next-step service guidance. The unit supports tire-size value (placard) reset on supported vehicles. Free TPMS software coverage updates for the life of the tool; easily updated via Wi-Fi.

 BATTERY TESTING AND ANALYSIS

MAXIBAS BT609

BATTERY, DIAGNOSTICS AND SERVICE TABLET

A 7-inch Android-based touchscreen tablet with comprehensive battery, starter, and charging system testing capabilities that displays battery State of Charge (SoC) and State of Health (SoH), registers new batteries, plus performs all-systems diagnostics, and service functions. Supports in-vehicle and out-of-vehicle testing of 6- and 12-volt batteries of 100 - 3000 CCA and both 12- and 24-volt starting/charging systems. Uses Adaptive Conductance technology to reduce battery misdiagnosis, diagnose low-capacity batteries, and reduce the need to charge and retest for discharged batteries. Unit ships with MaxiVCI VCI200 and MaxiBAS BT200 device with battery clamp cable.

PART NUMBER: BT609

MAXIBAS BT608

DEDICATED BATTERY TESTER AND SERVICE TOOL

A handheld, 5.5-inch touchscreen wireless comprehensive battery and electrical system diagnostics tablet featuring Adaptive Conductance technology to identify low-capacity batteries and reduce battery misdiagnosis. Supports in-vehicle and out-of-vehicle testing of 6- and 12-volt batteries of 100 - 3000 CCA and both 12- and 24-volt starting and charging systems. Performs quick battery health status and automatic battery registration and features advanced AutoVIN and ScanVIN functionality for quick vehicle identification and battery specifications. Tool features shop manager application and a built-in thermal printer. Unit ships with MaxiVCI VCI200 and MaxiBAS BT200 unit with battery clamp cable.

PART NUMBER: BT608

MAXIBAS BT506

BATTERY TESTING AND ANALYSIS

The BT506 is a Battery and Electrical System Analysis tool and App, compatible with Android and iOS devices. Supports in-vehicle and out-of-vehicle testing of 6- and 12-volt batteries of 100 - 3000 CCA and both 12- and 24-volt starting/charging systems. Uses Adaptive Conductance for precise evaluation of cold cranking and reserve capacity. Ships with Bluetooth battery testing device with battery clamp cable. Pairs with Autel tablets with Battery Tester app for direct battery testing capability.

BATTERY SERVICE ACCESSORIES

OBDII EXTENSION CABLE

The VCIEXTCAB is a 37-inch long OBDII extension cable compatible with all OBDII-compliant VCIs. Recommended for use with MaxiVCI VCI200 for quick use and retrieval.

PART NUMBER: VCIEXTCAB

BATTERY TESTER MEMORY SAVER

The Autel OBDII Memory Saver is a polarity-protected cable that connects to a 12-volt backup battery to supply power through the OBDII port, preserving vehicle data and avoiding re-coding systems when the main battery is disconnected. It includes surge protection and three LEDs to indicate power supply status.

PART NUMBER: BTMS

BATTERY TESTER ACCESSORY KIT

Battery Tester Accessory Kit includes the DM100 Digital Multimeter, 400A Current Clamp, and essential probes and leads. Compatible with MaxiBAS BT608 and BT609 tools, the BTAK assists in troubleshooting vehicle electrical systems. Features a 400A Current Clamp with a measurement range of 20mA to 400A AC/DC.

PART NUMBER: BTAK

MAXIVIDEO MV480

DIGITAL INSPECTION VIDEOSCOPE

The MaxiVideo MV480 is a dual-camera digital videoscope with a semi-rigid 39.4-inch cable and 10-level adjustable LED light. It features a 2-megapixel camera that captures high-resolution (1920 x 1080) stills and videos, with a 4.1-inch 1200x720 LCD display. The 8.5mm probe includes front and side cameras, viewable independently or together. Additional features include audio annotation, a bright LED flashlight, and a built-in 2600 mAh battery for up to 4 hours of use.

PART NUMBER: MV480

MAXIVIDEO MV460

DIGITAL INSPECTION VIDEOSCOPE

The MaxiVideo MV460 is a digital video scope with a semi-rigid 39.4-inch cable, 10-level adjustable LED light, and a 70-degree field of view. It features a 2-megapixel camera for capturing high-resolution (1920 x 1080) stills and videos, with one-button quick image capture and video recording. The handheld unit includes a 3.5-inch 640x480 full-color LCD display and an 8.5mm camera probe. It is powered by a built-in 2600 mAh battery, offering up to 4 hours of continuous use.

PART NUMBER: MV460

OSCILLOSCOPE ACCESSORY KIT

The MSOAK, compatible with the MaxiFlash VCMI, is included with the MSUltra and MS919 tablets. Kit consists of the 65A AC/DC Current Clamp, 650A AC/DC Current Clamp, Coil-On Plug Probe, HT Extension Lead (2pcs) and Battery Clip (2pcs), within a blow-molded carrying case.

PART NUMBER: MSOAK

SPECIALTY TOOLS

MAXIVIDEO MV108S

8.5MM DIGITAL INSPECTION CAMERA

The MV108S digital inspection camera is designed to work with Autel diagnostic tablets. The MV108S features a 8.5mm camera head, 2 mega-pixel camera providing 1920x1080, LED illumination, and a 1-meter waterproof USB cable. It turns your Autel tablet into a video inspection scope, allowing you to examine difficult-to-reach areas hidden from sight. Record digital still images and videos. Includes mirror, hook and magnet attachments.

PART NUMBER: MV108S

MAXIVIDEO MV105S

5.5MM DIGITAL INSPECTION CAMERA

The MV105S digital inspection camera is designed to work with Autel diagnostic tablets. The MV105S features a 5.5mm camera head, LED illumination, and a 1-meter waterproof USB cable. It turns your Autel tablet into a video inspection scope, allowing you to examine difficult-to-reach areas hidden from sight. Record digital still images and videos. Includes mirror and magnet attachments.

PART NUMBER: MV105S

LIMITED WARRANTY

STANDARD POLICY

Autel guarantees to the original end-user that its products are free from defects in material & workmanship for a specified period of time depending on the product.

Autel Will Repair Or Replace Warranted Products At Its Discretion:

- Replaced products will either be new or re-certified
- All re-certified products will be tested to ensure their hardware & software are functionally equivalent to new products

Do Not Open Or Disassemble Autel Products:

- Opening and/or disassembling an Autel product will void the product's warranty
- Contact Autel Tech Support for assistance

This Limited Warranty Does Not Apply To:

- Product with a cracked screen, broken case, chemical exposure or liquid damage
- Damaged product due to accident, abuse, misuse, natural disaster, insufficient or excessive electrical supply, abnormal mechanical or environmental conditions or unauthorized disassembly, repair or modification
- Consumable parts, such as batteries or protective coatings that are designed to diminish over time, unless failure has occurred due to a defect in materials or workmanship
- Product not used in accordance with accompanying instructions or intended use

STANDARD PROCEDURE

- Defective products require a Return Goods Authorization (RGA) number from Autel to be serviced
- Contact Autel Tech Support to obtain an RGA number
- End-users are responsible for the cost of insuring & shipping products to Autel for repair or replacement
- Autel will cover the return shipping cost of the repaired or replacement tool with the same delivery speed by which it was received
- Tools must be properly packaged to prevent damage during transit
- RGA numbers must be prominently displayed on the outside of the package
- Packages received without RGA numbers prominently displayed will be returned, unopened
- Autel cannot guarantee the security of a unit that is shipped without an Autel-issued RGA
